March 7, 1972

Dear Harold,

Thanks for the stuff and pointing out the interesting fact abt. Banister. They haven't been too interested in the K-Perjury thing.

I doubt that I can get down to Kansas. We're negotiating a new contract here and it's hard to get away.I'd also like to save some time to get back out there. I can't make out the Hart carbon. I'm going to send you some single carbom and second sheet things I have left from my VISTA days.

By the way, do you use strange paper? Why is it white on one side and yellow on the other? Is it that way when you mail it? or is that the result of spooks subjecting it to strong light?

I thought you might find the inclosed wire copy interesting. I've taken to going through all the discarded wire copy when I have time. sually I don't have the extra minutes. We should be able to gather some extra stuff for files that way.

Our friend in New York says I can have the tape of L. although it isn't very good. He talked so much she kept shutting it off and on. She still has to go back for another interview because I changed her mind on the whole subject.

Several of Bob's piece's are in. I think they are waiting for the last one after the N. H. primary. Maybe he can interest them on K. thing. I am ~~xxxxx~~ compiling stuff for astroy on political campaign out of Justice and IRS. Am open to suggestions.

Did you see the clark Mollenoff piece on Bob Smith? Ran sunday a couple weeks ago in the Sun-Times here. Our newspapers have endorsed Donald Page Moore (of baker and Hoffa fame) for state's atty. I don't know why. He's a good man but we usually go Demo. party line.

I'll send you the tapes from the Skolnik show last Nov. on WLS-FM.

L.
